

ABOUT THE COMPANY

STUDIO IQ

STUDIO IQ s.r.o. was founded in 2016, with a goal of realizing and being an umbrella for a program called I-CHING-CUBE. The meaning and design of this name comes from a concept of a 3D representation of the Classic of Changes (I-Ching).

The original company was founded in 2010 by the owners of international industrial property rights (patents and design), and was called Hexagram display, which gave the company international potential for the realization of its program in the most significant global markets (EU, USA, China, Japan, Taiwan, South Korea, Vietnam, Canada and Switzerland). Its future goal is to realize the company's concept in the full range of its possible uses. The current use of the Hexagram display concept is a harmonizer of bio energetic processes in a person with a side effect of gradual negation of inadequate magnetic field syndrome.

Our program consists of the following activities.

1. Providing regeneration and reconditioning services to clients by way of unique devices, such as the I-CH-C (I-CHING-CUBE) regenerator and the ID regenerator (Imaging-Device, or Hexagram display).
 2. Distribution of commercial devices (ID regenerator, EnergyPod) and consultancy service provision in regards to their use.
 3. Renting of study devices (ICH-C regenerator), which includes the provision of all equipment, personnel training and marketing assistance.
-

OUR MISSION

Our help usually begins where other's ends. This is why our mission is to provide informational and technical background of the utmost quality, which can only be achieved by constant education, inspiration of the current state of your needs on the road to a healthier personal potential and, last but not least, a personal desire to help. We don't give or give back health, nor do we or our devices heal illnesses. However, we have a much higher and more effective potential. By cooperating with us, we are able to restore the function of the "self-healing mechanism", which is found in the body of every living being on Earth, to its maximum possible level.

We are able to help you come back to basic life principles, which are necessary in restoring this gift and mechanism we were born with. The greatest miracle in life is certainly nature. If we are willing to once again live in accordance with it, it will do all it can to ensure that we live our life in a content way, free of disease, medicine, pain and a premature departure from this world.

So please allow us to bring you along this journey. With the help of many current studies and experience, we can show you what is still possible.

COOPERATION

Our services are primarily based on cooperation with worldwide leaders in the irgiven fields, which we concentrate into one whole. This cooperation pertains to primarily nutritional and clinical nutrition, as well as sophisticated and one-of-a-kind technology such as ICHC & ID devices, as well as the unique EnergyPod device. In the global perspective of people's health, we are still interested in making connections for the maximum fulfillment of our mission, which is to help people in the most natural and effective way possible. So don't hesitate to contact us in case you see a possibility in cooperating to bring quality services to others.

IQ SERVICES

A new chance to renew the functioning of your own self-healing system From this point forward, you are not in this alone.

Body regeneration and reconditioning,
or rather vitalization.

These processes take place at our business by way of I-CH-C and ID regenerators. These exceptional devices are able to (in just a few minutes) positively influence a person's bio magnetic field, thus activating the body's automatic self-healing and energetic processes. This takes place due to a very sophisticated impact on the circulation of blood, the immune system, energy pathways (meridians), energy points not located on energy pathways and other bodily fluids. It is well-known that sickness is a symptom of unbalance in the organism. Our services introduce a new unique method of readjusting an organism's energy balance in a natural way and without the use of medicaments.

Some of the results of our therapies include the remedy of migraines, recurrent headaches, muscle tension, spasms, pain in the musco-skeletal system, joints, lower back, and the spine (the equipment has an analgesic effect), the remedy of causeless insomnia and fatigue, as well as ensuring energy balance and strengthening the immune system. It also has an excellent effect on inflammatory bowel diseases (ulcerative colitis, Crohn's disease and irritable bowel syndrome), as well as in cases of unspecified chest pains or low/high blood pressure. I-CH-C and ID regenerators also significantly help speed up the process of a person's health state normalization after cerebral and cardiac events and other complicated conditions. They are also a great help in eliminating local inflammatory processes, which can be accompanied by pain.

The mental state of a person is also another important field where our devices are effective. This is done by way of eliminating apathetic states, such as distress, stress, anxiety and post-traumatic stress disorder, during which a person doesn't have an "appetite for life". They help with reducing hypersensitivity and aggression and positively influence states such as depression, various phobias, and burnout, while also sustaining positive emotions, relieving moodiness, and bringing peace back to a person's mental state. A person thus feels greater relief, peace and calm, while also feeling less fatigue and more vitality.

Conditional harmonization

Conditional harmonization is primarily targeted towards people that are not in the treatment process of serious health problems, and are thus relatively healthy and actively implement meaningful processes into their daily lives that are aimed at maintaining, regenerating or revitalizing their body. Balancing energy flows in the body has also become a primary objective for relatively healthy individuals, as they also undergo daily disruptions and disharmonization via our surroundings, which includes a number of electric appliances, internet networks or GPS repeaters. Unfortunately, our organism is not able to harmonize these disruptions on its own, as we are unable to get ourselves out of these surroundings. The important thing is that a person will immediately feel the effects of the therapy and the changes it brings him/her – it is an automatic process that we, as the personnel of our studio, have absolutely no impact on.

Therapeutic regeneration

Therapeutic regeneration is related to the solution of a specific health problem, on the basis of verification inputs which are carried out with the help of specific devices, named DELTA SCAN and AURA SCAN, as well as with the help of a necessary personal consultation. These steps allow both us and our client to have a complete look into processes currently taking place in the body. With this, we are able to designate the most precise therapeutic regeneration procedure, which is of course measurable and verifiable.

Therapy and services	Price
BIOFIELD HARMONIZATION / armchair/rest chair	25,00 €
CONTROLLED BIOFIELD HARMONIZATION AND VITALIZATION / armchair	32,00 €
CONTROLLED BIOFIELD HARMONIZATION / armchair rest chair	35,00 €
INDIVIDUAL PROGRAM / reconditioning (40 – 50 min.)	45,00 €
INDIVIDUAL CONSULTATION (each full or partial hour)	25,00 €
KANYLA (in cases of simultaneous free oxygen therapy use)	5,00 €
EnergyPod (special regeneration armchair) 20min.	10,00€

This price list is valid from November 1st, 2016
The prices listed include VAT

DELTA SCAN and a frequency analysis of a person's biosystem

Delta Scan is a low frequency nonlinear quantum generator which, in a relatively short period of time, provides us with a complex and primarily non-invasive analysis of a person's overall health state. It provides a complex look into cells, chromosomes, as well as soft and hard tissues. It is able to find inflammatory foci in individual organs. It is also able to detect the presence of parasites, bacteria, mold and viruses relatively precisely.

The DELTA SCAN device assesses the group of eddy magnetic fields in an organism with the help of changes in the wave patterns of body tissues. This same approach then allows us to verify the impact of the effect of I-CH-C and ID regenerators, which allows for a review of its effectiveness on a specific state. Delta Scan is a professional piece of equipment used in medical diagnosis and therapy and is a product made by the renowned German company DELTA TECHGMBH. This system meets the requirements of the European directive 93/42/EEG on international products (MDD).

Price List - Delta Scan – nonlinear analysis

Price

NONLINEAR ANALYSIS DS graphical output (printing of 5 A4 pages)	70,00 €
COMPARATIVE NONLINEAR ANALYSIS DS	55,00 €
NONLINEAR ANALYSIS CHECK-UP (selected organs/structures)	15,00 €
EXTRA PRINTING COSTS FOR 1 SHEET OF A4 PAPER	0,50 €

This price list is valid from November 1st, 2016
The prices listed include VAT

AURA CAMERA 6000 and biomagnetic aura analysis

The Aura Camera 6000 provides us with a high quality virtual bio-magnetic field scan of a person, with the goal of verifying the results of regeneration application. These results are also shown in graphic form. It focuses primarily on energy centers from the perspective of their quantity and quality. Thanks to this exceptional piece of technology, we are able to find weaker places of energy potential in the scanned organism.

The Aura Camera 6000 allows for a look into our subtle body structures. The final result is the creation of a virtual aura picture, i.e. a scan of a person's bio field. This tells us quite a bit about the energy aspects of a person on a physical, as well as psychosomatic and mental level. The original picture is also complemented with a graphic output in A4 format, which shows us the current state of torsion centers(chakras) from both the quality and quantity of energy in a person's body.

Price List - Aura Camera 6000 – biomagnetic aura analysis

Price

AURA CAMERA 6000 print output	30,00 €
AURA VIDEO print output	15,00 €
CONTROL AURA VIDEO before and after therapy with a printed output and results	27,00 €
CONTROL AURA VIDEO without a print output	5,00 €

This price list is valid from November 1st, 2016
The prices listed include VAT

IQ PRODUCTS

Aside from specific services, STUDIO IQ provides their potential business partners, as well as end users, the following products:

ID CUBE regenerator

This device is primarily aimed at providing services in specially modified studies, but is also appropriate for home use. ID CUBE is a magnetic aid that belongs to the group of ID (Imaging Device) devices and is industrially protected in the entire EU area. It generates a routing magnetic field in cases of direct exposure, while working in a local and direct way to affect tissues and make any necessary changes in cell processes in the exposed area. The ID CUBE showcases its effect mainly when helping to release stress, improve limb mobility, stimulate breathing and stimulate organism performance. Anybody who is interested in procuring this regenerator can do so directly in our studio by way of an order and subsequent buy. Complete information about the equipment in our facilities, as well as the qualification of our expert personnel and marketing assistance can be acquired in our office, as a part of our services.

ID-TE regenerator (Imaging-Device Titan Edition)

The ID-TE regenerator design is based on the Classic of Changes (I-Ching). The device creates an interaction between the biological systems and bio-magnetic fields of living organisms. Unlike conventional magnet therapy devices, the ID-TE regenerator does not use local exposition, but rather magnetic induction as the energy source of the signal, which is then transmitted into the organism. The ID-TE regenerator device vitalizes and harmonizes cells in select areas of the body, while also affecting the inactivity- removes energy blocks- improves immune system activity- helps regulate inflammatory processes- eliminates stress, fatigue and insomnia and has a positive effect on the psyche- stifles pain in the body- serves as complementary therapy in cases of difficult-to-heal diseases

This multifunctional device was primarily developed for professional, but also home use. This means, that they can not only be used in special studies but also in a mobile way, e.g. in the home setting of people whose health status doesn't allow them to come to a professional studio.

After completing a short briefing with a qualified member of our staff and thanks to the programming set that is included with the regenerator, ID-TE regenerator therapy can be applied in a home setting. Customized settings are also possible, thanks to 4096 different settings and an automatic mode. However, it is also possible to use the manual mode (only for experienced users). The ID-TE device can be used on both a vertical and horizontal level.

EnergyPod the first luxury regeneration chair (now with commercial representation in the Slovak Republic)

device was specially developed for the maximum possible regeneration of the human body throughout the operational, a.k.a. daily schedule. It is the first specially modified chair in the world, thanks to which renowned companies such as GOOGLE, FACEBOOK or MICROSOFT are able to provide their TOP managers with the luxury of a quick and quality “recharge” that is founded upon numerous past research regarding the quality of performance of the human body.

Comfort

Zero-gravity position – specially composed sleep music – a slight vibrational sequence for waking up – programmed lighting. The TOP aspects and characteristics of the exceptional EnergyPod device, which was created to help you relax.

Technology

The EnergyPod was developed according to a simple principle: a 20 minute nap is beneficial for peace of mind and productivity. Software functions include a state indicator, which communicates when the EnergyPod device can be used again, as well as usage tracking for optimization of operation management.

Design

Though our device's main goal is to provide adequate rest in the workplace or during specific studies, it must also have certain aesthetic aspects, independent of where the device is. This is why we have developed this stylish and timeless design. The classic EnergyPod comes in a white and grey color combination. However, it is possible to request a custom color combination that will best suit the environment that you plan to use the device in.

SAFETY AND CERTIFICATION

Device safety

Based on test results No. 1451/2011, 2989/2011 and 2267/2012, the Public Health Authority of the Slovak Republic has issued a stance in which it states that the Hexagram display I-CH-C, Hexagram display ID regenerator (aluminum edition) and Hexagram display ID-TE regenerator devices meet the 1999/519/ES safety standards of the Council of the European Union regarding the limitation of exposure of the general public to electromagnetic fields (0Hz-300GHz), as well as the Decree of the Ministry of Health of the Slovak Republic No.534/2007 Collection of Laws regarding the particulars and requirements on sources of electromagnetic radiation and limitation of exposure of the general public to electromagnetic radiation in the environment and Government regulation No. 329/2006 Collection

of Laws on the minimum health and safety requirements for the protection of workers from risks related to electromagnetic field exposure.

Safety - Industrial property rights

Our regeneration devices I-CH-C and ID were created on the basis of the Hexagram display concept and are subject to patent and design protection on the most significant global markets (Slovakia, EU, USA, China, Japan, Taiwan, South Korea, Vietnam, Canada and Switzerland).
